

CV- Professor Mirjana Doknic

Mirjana Doknic is a full Professor of Internal Medicine and Endocrinology at the Faculty of Medicine, University of Belgrade, Serbia. She graduated and obtained PhD degree at the same institution. Dr. Doknic has been employed in the Department of Neuroendocrinology at Clinic of Endocrinology, Diabetes and Metabolic Diseases, University Clinical Center of Serbia, for the last 30 years. The center where she has been working belongs to the group of pituitary tumor centers of excellence (PTCOE).

Her main fields of interest are pituitary tumors, the medical treatment of acromegaly and Cushing syndrome, hypopituitarism, long-term endocrine and metabolic consequences of childhood cancer survivors in adults. She is a pioneer in the formation of the so-called “transition units” in the Balkan region to facilitate the transfer of patients with pituitary diseases from pediatrician to adult endocrinologist. Professor Doknic has been actively involved in several domestic and international projects Professor Doknic is actively involved in several projects dealing with neuroendocrinology diseases: 1) Project of mapping the genetic basis of congenital hypopituitarism in the region; 2) Study of adherence to growth hormone therapy during the transition period in cooperation with the neuroendocrine units of 15 faculties in Italy; 3) Hypopituitarism ENEA - Rare Observational Study (HEROS study); 4) ENEA Resistant Prolactinoma Study; 5) Therapeutic options and risk factors for the onset and progression of Graves' orbitopathy, endorsed by the Ministry of Science, Technological Development and Innovation of the Republic of Serbia.

Professor Doknic has published more than 80 peer-reviewed articles in the field of neuroendocrinology, endocrine and metabolic disorders and hypothalamic/pituitary pathologies. She was the principal investigator in several projects related to acromegaly and growth hormone deficiency, sponsored by Crinetics, Ascendis, Pfizer, Camurus.

Dr Doknic was a member of two international advisory boards consisting of experts in the field of pituitary diseases of Central and Eastern European countries. She is a member of several national and international medical society (Serbian Medical Society - SLD, ENEA, ESE).

Professor Doknic has been a reviewer in the following journals: European Journal of Endocrinology, Cancer, Journal of Endocrinological Investigation, Journal of Clinical Medicine, Endocrine, Expert Review of Endocrinology and Metabolism, American Association Clinical Endocrinology Case Report (AACE), Growth Hormone and IGF Research, Acta Endocrinologica Buch. and a member of the Review Editorial board of the journal "Frontiers in Endocrinology".

Belgrade, June 25, 2026.
